TRUMP'S FIRST 17 DAYS

Undisclosed Location, America. Probably. – New RTN Polling of President Trump's first 17 days finds the population split dramatically between two different visions of what actually happened in America.

87% of Trump Voters approve of Trump's Immigration EO calling it the "Muslim Ban he campaigned on." Of those, 47% mispronounce the word "Muslim" adding the short-o sound and 'z' sounds instead of 's' (Moo-zlims). 90% of those voters believed that Trump's ban had prevented a major terrorist attack on American soil and that the media was covering it up.

Conversely only 18% of Non-Trump voters approved of the Executive Order and of those only 7% mispronounced "Muslim." Additionally, polling found that Independents (whether they had voted for Trump or not) and Obama->Trump voters were, by a margin of 64%, asking "what the fuck they were thinking?" (Self-Described Evangelicals asked "What the *heck* they were thinking by a 2:1 margin).

In Appalachia, polling found that 33% of Trump voters had discovered they were using "Obamacare" after their their vote and of those over 93% were shocked to hear that he had campaigned to destroy it. 74% of those would settle for a name-change of the act, most agreeing that the "Affordable Care Act" would be a suitable "non-partisan" name.

54% of Trump-voters get their news from either Fox News or Breitbart and believe that there is an active race-war in America while only 3% of Non-Trump voters believe the same.

RealTruePolling surveyed 12,307 likely voters across all continental United States on February 3 rd and 4th. The margins of error for the surveys are +/-3.7%, +/-3.2%, and +/-2.8% respectively. 80% of participants, selected through a list based sample, responded via the phone, while 20% of respondents who did not have landlines conducted the survey over the internet through an opt-in internet panel.
